

## ARMY IS NOT READY.

(Western Associated Press)  
Washington, Dec. 11.—In his annual report to the president today, Secretary of War Stimson declared that the contingency of war with a first-class power would find the army of the United States practically unprepared. He attributed this largely to the fact that the army was "scattered over the country" in too many posts and to a lack of reserves.

## M'NAMIGAL WILL TELL STORY.

(Western Associated Press)  
Los Angeles, Dec. 11.—Orin E. McManigal, will be taken to Indianapolis within a few days to tell the Federal grand jury there what he knows of the alleged dynamiting conspiracy, the first chapter of which was closed today with the placing of John J. and James B. McNamara in the San Quentin state penitentiary.

## FISHERMAN ON ICE FLOE.

Dorpat, Russia, Dec. 11.—Over 100 fishermen are adrift on an ice floe on Lake Peipus, from which the winter fish supply for St. Petersburg is drawn. As all the lake steamers have been laid up for the winter, some time will elapse before rescuing parties can be organized and sent out.

## REPORTS ON PUBLIC HEALTH FOR NOVEMBER

Nurses' Home at City Isolation Hospital Now Occupied—  
Says Installation of Sewer and Water Service Is of Utmost Importance

Medical Officer of Health, Dr. T. H. Whitcomb, reports a fairly good month for November, from the public health standpoint. The officer of health in his report has several pertinent remarks to make. The report follows: Messrs. The Commissioners, City of Edmonton, Gentlemen:

I beg to report as follows, the work of the Health Department for the month ending November 30th, 1911:

**Isolation Hospital.**  
There have been admitted: Erysipelas, 3; smallpox, 6; chickenpox, 1; measles, 1; diphtheria, suspect; 3; scarlet fever, 2; total, 16.

There have been discharged: Scarlet fever, 7; diphtheria, 3; diphtheria suspect, 3; smallpox, 3; erysipelas, 1. Total, 17.

Toward the end of the month the Nurses Home was sufficiently near completion to enable the nursing staff to transfer their sleeping quarters.

The accommodation provided for the nurses is now very satisfactory and will add not only to their efficiency, health and comfort, but make available for use the suspect wards in the hospital itself. These suspect wards are reserved for any doubtful cases of cases of double infection which unavoidably may occur, but will not be used as detention stations while the diagnosis is being established.

The necessary repairs to the hospital have been completed at a considerable but quite justifiable expense. An institution like the isolation hospital must be equipped, maintained and conducted in such a manner as to gain the approval and confidence of the public. If it is to fulfill its proper function of being the greatest factor in the lessening of the number of cases of the more serious infectious diseases. The economy and advantage of having such cases treated there, rather than at home is becoming better understood, as evidenced by the fact of 12 cases of diphtheria occurring in the city the last year, 35 were treated in the hospital, and of 297 cases of scarlet fever 153 were admitted to the wards. Owing to the unusually large number of the latter applying for admission in June and July, the accommodation for this disease became temporarily insufficient and many could not be taken in who would otherwise have preferred hospital treatment.

**Infectious Disease.**  
Apart from typhoid fever, the city is at present remarkably free from infectious disease. Of a total of 98.18 were city cases and 20 from outside. The typhoid fever cases numbered 37 or more than half of the total. Of these 24 are city cases and 13 are known to have contracted the disease outside. Worthy of remark is the large percentage of children attacked, 12 of the 24 city cases being under 13 years of age, and the fact that a great many of the cases occurred in families as a result of contact with a previous case in the same house. Personal contact therefore may be given as the direct cause.

**Smallpox.** . . . . . 2  
Diphtheria . . . . . 2  
Scarlet fever . . . . . 4  
Measles . . . . . 1  
Chickenpox . . . . . 4  
Erysipelas . . . . . 2  
Typhoid fever . . . . . 18  
Total, 68

**Disinfections.**  
Rooms Houses  
Smallpox . . . . . 16 7  
Diphtheria suspect . . . . . 2 1  
Scarlet fever . . . . . 8 2  
Measles . . . . . 1 1  
Chickenpox . . . . . 4 4  
Totals . . . . . 31 15

**Vital Statistics.**  
Births, 65; marriages, 56; deaths, 37. Of the deaths five, although registered here, occurred out of town, and four, who came into the city for treatment died in the hospitals, so that the actual deaths occurring among residents of the city only number 28.

The following is a report of the sanitary work of the Department for November 1911.

Number of complaints received from the public, 15.  
Number of complaints unfounded or rectified prior to inspection, 3.  
Number of complaints referred to other departments, 2.  
Number of notices issued for the abatement of nuisances, 134.  
Number of ash can notices issued, 61.  
Number of tents inspected, 5.

A large portion of the past month was devoted to the compiling of a list of premises not connected to the sewer and water mains, this was done with a view to having all particulars regarding ownership, etc. The possession of these particulars should be of value to the Department, when the compulsory sewer and water installations are

## COULD NOT SWEEP FLOOR

Was So Terribly Afflicted With Lame Back.

It is hard to do housework with a weak and aching back, and no woman can be strong and healthy unless the kidneys are well.

The weak, lame and aching back comes from sick kidneys and should be attended to immediately so as to avoid years of terrible suffering from kidney trouble. Mrs. Harvey W. Brownell, Northport, N.S., writes:—"I now take pleasure in writing you, stating the benefit I received by using Doan's Kidney Pills. About a year ago I was terribly afflicted with lame back and was so bad at times I could not sweep my own floor. While looking through your B.B.B. Almanac I saw Doan's Kidney Pills were a great remedy, so thought I would try a box or two. After using five boxes I was completely cured, and I am very thankful to have found so speedy a cure."

Doan's Kidney Pills are 50 cents per box, or 3 boxes for \$1.25, at all dealers, or mailed direct on receipt of price by The T. M. Mearns Co., Limited, Toronto, Ont. In ordering direct specify "Doan's."

## FOES OF SALOON NOW IN SESSION

DELEGATES OF ANTI-SALOON LEAGUE OF AMERICA NOW ASSEMBLING AT WASHINGTON

(Special to The Capital.) Washington, D. C., Dec. 11.—Delegates from all over the country are assembled in the capital for the biennial convention of the Anti-Saloon League of America. The business sessions of the gathering will last four days and will be followed by a national conference to consider the question of interstate liquor traffic. Men and women prominent in temperance work, together with a number of members of congress, are expected to speak in support of the movement for federal legislation relative to the interstate liquor question.

The Anti-Saloon League of America was started at Oberlin, Ohio, about fifteen years ago by the late Rev. J. H. Russell of the church extension board of the Methodist church, and Archibald Leitch. The organization is a federation of churches, temperance societies and individuals opposed to the drinking saloon without regard to party lines or denominational differences. The league now has nearly 150 officers scattered over the country from which large quantities of anti-saloon literature are distributed each year.

## DARING HOLOUP IS PERPETRATED

THIEVES IN STOLEN AUTO BEAT AND ROB IN THE HEART OF CITY

Minneapolis, Dec. 11.—Four men heavily armed stepped from a stolen auto at Hennepin and Fifteenth street early Sunday and while a 16-year-old girl looked on, held up Anton Houslik and beat him with their revolvers and robbed him of \$55.

While he lay bleeding and half stunned on the walk, the men jumped into the car with the girl and sped out Hennepin avenue toward Lovery hill. Houslik made his way to the police headquarters and the car dashed about the city.

An hour later, the robbers returned to a point within three blocks of the first robbery, jumped from the machine and held up B. H. White, of Hawthorne avenue and Seventeenth street. White had a diamond ring and a watch. The robbers beat him with their guns, both, valued at \$500. The machine then sped on out to Bryn Mawr, closely pursued by the police auto, but as yet they are unaccounted for.

## WHITNEY FORCES TO SWEEP THE PROVINCE

Provincial Elections Being Held Today in Ontario and Return of the Conservative Premier Is Conceded—Expect to Have 94 Seats

(Western Associated Press.) Toronto, Dec. 11.—The final gun in the provincial campaign was fired Saturday night and everything points to a sweeping victory for the Whitney government. Whitney made his final speech in Hamilton, bringing to an end a determined attempt by the Government to beat Alan Stuchbols in the labor stronghold in Hamilton East.

The conservative candidate in that constituency is Controller W. H. Cooper and it is generally thought that he will succeed in defeating the only labor member that sat in the last provincial legislature, though the fight will be a close one. N. W. Howell, brought his campaign to a close with the assistance of Hon. Geo. P. Graham, ex-minister of railways, who spoke at his final meeting in Woodstock. This old time liberal stronghold, North Oxford, is

not regarded as particularly safe. The liberals have been charging the conservatives with flooding the constituency with money in order to defeat the newly selected opposition leader, but the charge is energetically denied by the government's speakers.

The strength of the government's position may be gathered from the fact that many conservatives confidently expect to carry 94 out of 100 seats in the legislature.

The opposition promises have not been calculated to catch many votes among the French Canadians, though it is expected that the liberals will carry Gleaney, Prescott and Sturgeon Falls on account of this question. The government carried 17 seats by acclamation and the organization claims to be sure of 73 more, making a total of 90. The opposition, on the other hand, claims that they are sure of 9 seats.

## NEW MINISTER IS WINED AND DINED

FOUR HUNDRED GUESTS GATHER AT TABLE TO HONOR PELLETIER

(Western Associated Press.) Quebec, Dec. 11.—Hon. L. P. Pelletier was the guest of honor at a dinner given him at Chateau Frontenac by his admirers in this district. It was one of the greatest ever held in Quebec, over four hundred guests being present. The dinner was marked by the attendance of a number of Federal ministers.

Hon. Thomas Chapais presided, and the speeches were all most eloquent. Hon. Sam Hughes, minister of militia, was in reminiscent mood and his announcement of the determination of the government to equip the ports of Canada, of which Quebec is the principal, aroused the enthusiasm of his hearers. Hon. Mr. Burrell, minister of agriculture, and Hon. Mr. Nairne, minister of interior, also delivered addresses.

## DUTIES ARE TO BE INVESTIGATED

TAKE UP ITEM OF MACHINERY FOR U. S. MANUFACTURES STILL SELL

(Western Associated Press.) Ottawa, Dec. 11.—The first task to be undertaken by the tariff commission after it has been named by the government will be an inquiry into the agricultural implement industry, with the idea of ascertaining what basis there is for the contention that the time has come when the rates should be reduced. Western members insist that the duties on agricultural implements should be reduced to a lower point than the 17 1/2 per cent, now collected.

W. F. Cockshutt, in a House the other day, announced that the United States manufacturers are still able to sell implements cheaper than the Canadian makers and the time has not yet come when the duties should be reduced. The duty of the tariff commission will be to get at the facts and reports its findings to the government. In view of the request recently made by representatives of the steel

companies, it is probable that the commission will make a study of the steel industry as soon after it is named as possible and the government will decide as the result of the data and before it whether the steel industry is entitled to more encouragement in the way of the renewal of the recently expired bounties of an increase in the tariffs.

## FACE WAS LITERALLY COVERED WITH PIMPLES.

Your Different Doctors Did Her No Good.

Two Bottles of BUCKEY BLOOD BITTERS Cured Her.

Bad blood is directly the cause of the face breaking out in pimples, and it is impossible to eradicate them unless you get your blood into good shape.

Buckey Blood Bitters is compounded from roots, herbs, barks and berries, and is without a doubt the best remedy procurable for the purpose of driving all the blood impurities out of the system.

Mr. Geo. B. Miller, Clatskanie, Ore., writes: "Last fall I was very much troubled with pimples. My face was literally covered with them. I went to four different doctors, but they could do me no good. One day a friend advised me to use Buckey Blood Bitters, so I got two bottles, and before I had taken all the first one, the pimples had nearly all disappeared, and by the time I had taken all the second one the pimples had disappeared completely, thanks to Buckey Blood Bitters. I would advise anybody who is troubled with any blood trouble to use Buckey Blood Bitters."

## TRAIN STOPPED BY DELEGATION

ENTWISTLE DELEGATION PLAYS STRATEGIC PART IN SCRAP WITH G. T. P.

(Western Associated Press.)

Edmonton, Dec. 11.—(P.M.)—Satisfactory adjustment of the recent differences arising between the railway commissioners and local officials of the Great Trunk Pacific at this place appears now to be assured through the energetic action of a committee of determined citizens, who make no effort to keep back the facts from publication. Upon the refusal of the G. T. P. train crews to obey the recent order of the commissioners to make regular stops at Entwistle as well as the suburban station a mile and a quarter outside the town, the committee mentioned organized a night party with red lanterns, boarded a train in true outlaw style, and after paying the fare of 20 cents per person, proceeded to advise the conductor for their few minutes' ride of a mile and a quarter to the suburban station, presented to him a demand for explanation as to his reasons for failure to comply with the order of the railway commissioners. The protest was on board, and was not without effect, as the train crew, upon being told that the committee was not to be treated as a nuisance, but as a body of men who had a right to be heard, and that action on that ground had already been commenced.

The committee advised the superintendent to go ahead with the action, as that was the kind of publicity they were looking for. Finding his demands, as well as his bluff, failed, the superintendent ordered the train stopped at Entwistle, and even before so doing as to promise regular stops at this station in future. A monster petition prepared with a view to bringing the G. T. P. officials into a clearer understanding of up-to-date hold-up methods when towns rights are raised in question. As there was no bloodshed in this instance, it is generally believed that the Entwistle outlaws will be immediately prosecuted for their determined undertaking as a red lantern organization.

Finding his demands, as well as his bluff, failed, the superintendent ordered the train stopped at Entwistle, and even before so doing as to promise regular stops at this station in future. A monster petition prepared with a view to bringing the G. T. P. officials into a clearer understanding of up-to-date hold-up methods when towns rights are raised in question. As there was no bloodshed in this instance, it is generally believed that the Entwistle outlaws will be immediately prosecuted for their determined undertaking as a red lantern organization.

## INDUSTRY LEADERS HOLD CONFERENCE

ARE CONSIDERING GENERAL MEASURES WHICH WILL PROVE OF BENEFIT TO TRUSTS

(Special to The Capitalist.)

Chicago, Ill., Dec. 11.—Many of the foremost business men of the nation were assembled in the ball room of the Congress Hotel today at the opening of the three days' conference called by the National Business League of America. In his opening address President George W. Sheldon explained the purpose of the gathering to be "for the consideration of imperative measures for the general welfare." The speaker further expressed the hope that the conference would aid in determining what all the business of the country and what remedial legislation will be asked of congress.

During the three days of the conference speeches will be delivered that will command the attention of the nation, not only because of their commercial and political significance, but because of the prominence of the men who will make them. Among the scheduled speakers are John Kirby, Jr., president of the National Association of Manufacturers; Frederick A. Delano, president of the Wabash Railroad company; George M. Reynolds, president of the Continental and Commercial National Bank of Chicago; Robert W. Taft, member of the National Monetary Commission; and Frederick Townsend Martin of New York.

Resolutions will be adopted urging upon congress the necessity from a business point of view of early legislative action dealing with currency reform, questions of transportation, the promotion of American foreign commerce, and the creation of an American merchant marine.

## NEW H. B. STORES FOR WINNIPEG.

(Western Associated Press.)

Winnipeg, Dec. 11.—It is understood here that Messrs. Burke, Hargood and White, architects of Toronto, are preparing plans for a two million dollar departmental store of the Hudson's Bay company, to be erected next year on the recently purchased Portage avenue site.

# THE EDMONTON IDEA

## Article No. 7—Wealth Production

There is a wide difference in the value of capital invested in development enterprises and in the value of capital invested in business of long-established standing. A good illustration of this is the increase in national wealth of which the two great American nations will serve as an illustration. The incalculable wealth of the United States was created in a single century. But as the different sections of that nation developed the rate of increase in wealth was very greatly lessened.

For example, values in Kansas or Iowa or any of the great middle Western States, are not increasing anything nearly as rapidly now as during the time that these states were being occupied and in the process of development.

The Edmonton Portland Cement Company will also serve as an illustration. This great enterprise is founded on a vast deposit of raw materials, which a year or two ago had practically no value at all. But by reason of the industrial institution which is being established on this property, these materials, which but yesterday were valueless, will soon be transformed into wealth at the rate of quite a million dollars a year for more than a generation.

Interest rates do not apply to enterprises of this sort. When a natural resource of any kind is utilized, whether it be the coal and clay for cement, or the clay that is used for making brick, or the forests that are transformed into lumber—the processes of development and manufacture means an enormous increase in values. And the stake is all in the natural resource, and the opportunities which the developing country presents.

Western Canada is an empire in the making. O. the one hundred million acres of the finest farm lands in this province, only 2 per cent. have yet felt the plow. It is difficult to realize today what this province will be like when the land is all occupied; when from the far north to the international boundary on the south, and from the Rocky Mountains on the west to the Great Lakes on the east, home is joined to home in one vast prosperous community. But this is all coming, and with its coming, cities are in the making; towns and villages are springing up in a day; railroads are spreading the arteries of

commerce everywhere; and the institutions, industrial and commercial capital, which enter into the building of this coming empire of the Northwest are practically all yet to be.

It is idle to attempt any estimate of what the wealth producing power of this country is. The farm lands alone will furnish a sufficient illustration of this. The soil of this section has a crop producing value of about \$20 per acre, which means that when the land of Alberta is under cultivation, that the annual outgoing crop will bring two billions of dollars each year into this single province.

This is but an illustration. Mineral development, the lumber industry and manufacturing are all yet to be taken into account. And what ever this is to mean as a proposition for the next twenty-five years, the stake is all here now. Any man may have just as large a part of it as his foresight, courage and genius will inspire him to claim.

Interest rates have no applications to such processes as these. Money, instead of being worth 6 per cent. annually, is worth just what the advance in values in this country will be. And by every evidence the annual rate of increase per annum is going to be many times 6 per cent.

Finally, let it be said that in WEALTH PRODUCTION by industrial development, experimentation is altogether unnecessary. Moreover the welfare and future of this country requires that the most exact and scientific methods should be employed in its development. As someone has said: "We must build right or build twice." And in building right it is only necessary that every step which enters into the development of an enterprise, the community, or the nation, be carefully, thoroughly and scientifically determined in advance, and that every step be a part of the concrete whole which is seen in its completeness from the beginning.

Two more articles will close this series. The one which will appear on Tuesday will be on the subject, "The Ideal City and Nation." The subject of Article 9 will be announced tomorrow.

## MINE WORKERS TO NAME OFFICERS

ELECTION IS BEING HELD IN UNITED STATES AND CANADA TOMORROW

(Special to The Capitalist.)

Pittsburgh, Pa., Dec. 11.—Throughout the coal fields of Ohio, Pennsylvania, Indiana, West Virginia and other States, there were canvassing, rallying and parading of miners today to close one of the most strenuous campaigns for the election of district and national officers of the United Mine Workers of America in the history of that organization.

The election will be held tomorrow throughout the United States and Canada and the results will be announced at the national convention at Indianapolis next month.

The re-election of John P. White of Iowa, as president, is opposed by a large faction made up of the followers of Tom L. Lewis of Ohio, who succeeded John Mitchell as president and continued in office until defeated by White a year ago.

Edwin Perry, secretary, is the only national officer who has no opposition for re-election. Mr. Perry has held the office of secretary-treasurer for five years and during that time has handled over \$6,000,000 in funds belonging to the organization.

ing is the organization.

For vice-president Frank J. Hayes is being opposed by Samuel Pascoe, of Farmington, Ill. There are thirty-three candidates for the seven places as delegates to the next convention of the American Federation of Labor. Among these is John Mitchell, former president of the miners, and now vice-

president of the American Federation of Labor. Twelve candidates are in the field for the three places on the auditing and credentials committee, and twelve aspirants are out for the three places as tellers.

## LATEST SUGGESTION FROM CALGARY THAT DEACON MUST HAVE A VOICE ON FRIDAY

Although Deacon White Is Vice-President of the A. A. H. A. and Has a Vote on the Executive, His Suggests That He Be Barred From Having a Voice in the Doings Next Friday at Red Deer

There are no limits to the rabid hatred of Deacon White as exhibited by the sports writer on the Calgary Herald. Deacon is a vice president of the Alberta Amateur Hockey association and by virtue of such office has a vote in the doings of the executive. The latest suggestion emanating from the perverse brain of the Calgary critic is that at the meeting of the executive at Red Deer next Friday Deacon should not vote or have a say in the matter. Surely this is the limit.

No comment is needed on such a suggestion, but it certainly does show to what lengths the "outlets" will go to gain their own selfish ends. Meanwhile the situation is unchanged and the eyes of all hockey fans will be turned to the meeting of the executive to be held in Red Deer next Friday, although what can be accomplished toward abridging the residence clause it is difficult to see. The executive has no power to do it. All they can do is recommend and it will then be necessary to call a general meeting to have the clause rescinded. Such a procedure is not likely, however, for if the executive is desirous of upholding the amateur hockey rule of this province it is not likely to show any "give" to the disrupters, Gravelle and company.

On the other hand finding a concession to their demands, the "outlets" threaten to form a league in Southern Alberta. Give a calf sufficient rope and it will hang itself, according to the saying, and the southern hockey calves only have to have a little more rope to bring about the truthfulness of the saying.

It is not a pleasant task to have to say hard things about rival organizations, but it does seem to us that Gravelle has induced us to interjection to the limit. If he is allowed to get through with his bluff it will make good material for the jokesmiths of neighboring provinces.

The Alberta has started a correspondence with Gravelle and the interested parties in the squabble are having a gay time. Seely McKenzie, Steve Clancy, "Inquirer" and Chuck Clarke make to tilt about a column and a half between them. Steve Clancy alleges that the letter of Chuck Clarke which appeared in these columns on Saturday was "inspired" by Gravelle.

Chuck was sarcastic and suggests that the Saints forget hockey and indulge in literature or learn to play the violin and rest their chins. In fact he goes so far as to state that the Saints talked themselves into the provincial hockey championship last season, and certainly did not get it by playing hockey. Inquirer, who claims to be an admirer of Gravelle's doubts whether Gravelle voted for the residence clause at the annual meeting. He can rest assured that Gravelle did vote for it, the clause was adopted unanimously. Inquirer figures that Gravelle was too tired and consistent a man to vote to "caught in a trap like that." The words are his own, and the sooner Inquirer wakes up and realizes that his bid is but of clay the better. Seely McKenzie is of the indignant variety. He states "For the benefit of those interested in clean sport, let me say that I have no knowledge of Chuck Clarke, or any player having been paid for his services." Sounds alright, eh?

### CANDID COMMENTS

(By Grad.)

Preparations for tomorrow's big boxing contest between Jimmy Potts and Ed. Taro are now complete, and a record crowd is expected. Every accommodation will be given and several objectionable features that have characterized recent bouts will be cut out. Both men are as fit as they can be and have a lot at stake. Potts has a reputation and a large circle of admirers in this part of the country and wants to maintain their faith in him. Taro, a newcomer, of these parts and wants to make good, so it looks like a contest race.

The hockey situation got another nasty jar from Calgary over the week end. The Daily Herald of Calgary, joint donor of the provincial cup, endeavored to stir up the provincial champion, mark you, suggests that Deacon White vice president of the A. A. H. A. should have no voice in the doings at the executive meeting next Friday at Red Deer. It amounts to the same as saying that R. B. Bennett should have no voice in his own political campaigns.

They are certainly having a merry time in Calgary hockey circles. Joe Leitchbridge, "inspired" by Gravelle, took up the "inspired" suggestion, and Chuck Clarke is having a swell time. First comes a suggestion that his first letter was "inspired" presumably by Gravelle, then Steve Clancy takes up the issue and a slam at Gravelle. Seely McKenzie was indignant that his name should have been dragged in and so it goes on. We'll know more about it after next Friday.

Considering how much our friend Joe Leitchbridge would love to see much coin of the realm to gaze upon his pretty countenance when he reads that Leitchbridge, "inspired" by Gravelle, as president of the Western Amateur Hockey League, is not a little bit of a tax on his expletives to have to figure on Deacon in hockey and baseball at the same time.

They want to start the boxing game in Calgary and me thinks there will be little opposition to the scheme if some of the kickers could see the nice little bait we have scheduled in this bag for tomorrow evening at the Majestic theatre.

To protect the warriors he had procured from foreign tribes, which caused him to reach much. He did then confer with one Isherwood, a new provider of poor repute, a man of party and acquainted with Tammany. These did these two arch schemers plot the undoing of the Achillea Leoncut. Through the columns of the village periodical they initiate a campaign the vile slander on the personality of the northern chief. Further they sow the seed of discord amongst neighboring tribes, entering the backwoods to parley with the tribes of Hassan and Taber. Then they deliver an ultimatum refusing to enter into combat with the peaceful tribes unless the great residence clause is withdrawn, threatening to organize a body of outlaw tribes.

**Head Men Summoned.**

(9) Then did the new emissary of the High Mogul summon the head men elected as governors, to a meeting at Red Deer to be held after the passing of four days in order that the man Gravelle and his complaint might be dealt with.

(10) In the interim did the prophets gather together and gaze into the crystal and saw the outcome, and prophesied the downfall of the man Gravelle and his cohorts. And great was the falling thereof.

(11) The High Mogul has maintained a discreet silence, but the man of action will deal sternly with the puny whinnies of the Calgarians and great will be the rejoicing.

## Six-Day Bicycle Race

Will Commence Today and Continue Until Saturday at Madison Square Garden

New York, Dec. 11.—Cycle racing fans who for more than a decade have been wont to loaf and lounge and eat and sleep in Madison Square Garden, will today witness the most exciting and the most important bicycle race in the world. The six-day bicycle race will be the first of the kind in this city since the year of the great earthquake. The date for this year's event is December 11 to 17, the first six days of the new year.

The entire world from Australia to Europe has been ransacked this year to bring together absolutely every champion of note in the cycle racing game. Jimmy Moran of Boston, one of the greatest six-day racers in the world and one of the winners in last year's contest, will have for his partner Frank Farmer, the short-distance cycling champion of America. Eddie White will be paired with Freddie Hill of Boston. Joe Fogler, who has two previous victories in the event, has teamed with Jackie Clark. The European victors have been made in this year's race. Instead of riding for a fixed sum of prize money, as in previous years here, the riders are to receive a percentage of the gate receipts. They have been clamoring for such an arrangement for several years as almost all other professional athletes are conducted along these lines. The management decided to give it a trial.

**ARGOS ARE \$6,000 AHEAD.**  
Ottawa, Dec. 9.—The Argonauts appointed Joseph Wright, Win. Grant, Hugh executive out yesterday, and a A. P. Barrett committee to decide on a suitable souvenir for the Argonaut players, who had so much success this year. Great wittiness seem the most probable gift, and as \$1,500 has been set aside for souvenirs, the boys will be well looked after.

While exact figures were not produced, it is feared that the season this season will show a balance on the account of over \$8,000. They have been clamoring for such an arrangement for several years as almost all other professional athletes are conducted along these lines. The management decided to give it a trial.

## No Hockey in Toronto Possible This Winter

Rink Will Not Be Ready in Time to Play—Bruce Stuart Denies That He Is Going to Toronto—Bert Lindsay Will Stick to Tecumseh

Toronto, Dec. 11.—There is no possibility that Toronto will see no professional hockey here this winter, as the magnates now realize that only a miracle will have the rink ready by February 1st as promised, therefore it would not be surprising to hear that the pro magnates with the consent of the N.H.A. had dropped out of hockey for up to three years ago. I had been on the Toronto Selection committee for fourteen years, and it is a very hard job, I can tell you. We had to travel all over the country for months previous to choosing the team, and then when we did choose it, there were plenty ready to say they could do a much better one. If we were however, the critics withdrew quietly. If our men lost, it was all laid at the door of the poor selector, and "I was a year" was the general remark. Last year, England won the international championship, the figures being as follows:

Goals  
England ..... 2 0 1 2 5  
Scotland ..... 3 1 0 2 5 3 4  
Wales ..... 3 1 1 1 6 3 3  
Ireland ..... 0 0 0 0 0 0 0  
The games for this season are arranged as follows:

1. Scotland vs. England.  
2. March 2—Scotland vs. Wales.  
3. March 16—Wales vs. England.  
4. March 23—Ireland vs. Scotland.  
5. April 13—Wales vs. Ireland.  
To be played in the countries first named.

**England's Best.**  
To assist the English selection in choosing the talents at their disposal, a writer has prepared a list of those he thinks are worthy of consideration whose names are being allotted. It is a very good selection, and I have pleasure in giving it herewith:

Williamson of Middleborough, appears as brilliant a goalkeeper as he was a year ago, when he gained all possible honors, but Albert Bremner (Nottingham), Hardy (Liverpool), Beale (Derby), Webster (Walsford), and Skiller (Swindon) are good men in the forward line.

Among half-backs William Bradshaw, of Blackburn Rovers, has had a great season. Tranter (Aston Villa), G. Buckley (Aston Villa), Fay (Bolton Wanderers), M. J. Macneil (Derby), Hollisworth and Wareing (Preston), Andrew Brown (Hull City) and Silo (Swindon) have all claims for consideration.

In the forward line Hilton and Smith, two of the inside men of Bolton Wanderers; Brown of Swindon, Wallace of Aston Villa; Bond, of Bradford City; Elliott, of Middleborough; Cantrell, of North Freeman; Northampton; Morine of Sutherland, as an outside left; Bailey of Sutherland, as a centre; Middlemiss, of Tottenham Hotspur; Freeman of Burnley; T. Brown of Hull City, and Fleming and Jefferson, of Swindon, appear to be worthy of the attention of the committee. There are others of note such as Simpson, of Blackburn Rovers; Hibbert of Newcastle and Bradshaw of Everton.

My friend, it will be noted, does not mention the ministerial half back, who was blamed for showing too much "muscular Christianity" against Bennett, of Scotland, at Liverpool last year.

## HOCKEY CHRONICLES

The Great Struggle Over the Residence Clause in One Chapter—Some Lively Moves Expected This Week

(1) It came to pass late in the year, that the High Mogul did instruct his emissary, who was then lodged in the village of Lacombe, to summon together the head men of the warring tribes of the province in order that they might confer.

(2) The emissary did conform with the commands of the High Mogul, though his procedure was tainted with sloth, and the head men did assemble at Calgary, a small village in the south of the province, the habitation of the High Mogul, who did violate the rules of the tribes by summoning the head men to the southern village, as it was set forth in the aforesaid rules that the assembly should gather together in the city of Red Deer, a most flourishing community.

**In the Tent of the High Mogul.**

(3) The head men having assembled in the tent of the High Mogul, a most representative gathering, the High Mogul proclaimed to them that the opportunity had arrived to settle their mutual differences of long standing. Then did one Deacon, an honest man, in fact the man who would have satisfied the ancient Diogenes, did arise in the council, and introduced radical measures, chief among which provided that tribesmen could not promiscuously sell themselves to the highest bidder of rival tribes and make war upon their own tribe, it being the rule of rules of the assembly that the tribes and there aroused unrest amongst the tribes and therefore must not be allowed.

(4) Under these circumstances did the man Deacon provide for what was termed a "residence clause." Then did one Gravelle, a disrupter, whose chief occupation was to sow the seed of discord, arise and address the assembly, and virtuously pleaded that the smaller tribes would suffer should his stringent clause of the man Deacon be made law, but he failed in his effort to blind the eyes of the assembly to the fact that he had gone far distant to find warriors famed with valor and to protect these men did he arise and protest. Then did the tribesmen compromise and reduce the time limit of the clause one month and the head men did adopt the clause as amended.

(5) Then did the assembly proceed to select a new High Mogul and representatives to the executive. The High Mogul last in office signified that he would not occupy the position of authority any more, which proclamation he arose and protested. Then did the head men, for he had erred much, though a man of stout heart.

(6) The head men did then nominate and elect one Pearson, a preacher of the gospel and a peaceful man, yet well-versed in strength and character. They did further elect one the Auzcan tribes and elected to govern them men of noble and standing. Then did the Assembly Broke Up.

(7) And it came to pass that the assembly broke up and the head men departed home to their various tribes.

(8) On the morning the man Gravelle did realize that he had erred in his calculations and that he had failed

to protect the warriors he had procured from foreign tribes, which caused him to reach much. He did then confer with one Isherwood, a new provider of poor repute, a man of party and acquainted with Tammany. These did these two arch schemers plot the undoing of the Achillea Leoncut. Through the columns of the village periodical they initiate a campaign the vile slander on the personality of the northern chief. Further they sow the seed of discord amongst neighboring tribes, entering the backwoods to parley with the tribes of Hassan and Taber. Then they deliver an ultimatum refusing to enter into combat with the peaceful tribes unless the great residence clause is withdrawn, threatening to organize a body of outlaw tribes.

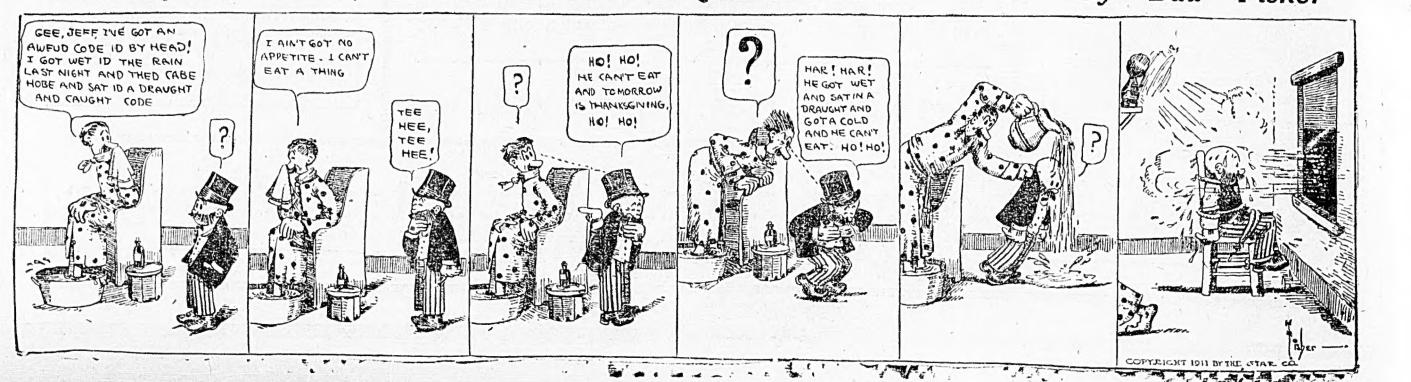

**Head Men Summoned.**

(9) Then did the new emissary of the High Mogul summon the head men elected as governors, to a meeting at Red Deer to be held after the passing of four days in order that the man Gravelle and his complaint might be dealt with.

(10) In the interim did the prophets gather together and gaze into the crystal and saw the outcome, and prophesied the downfall of the man Gravelle and his cohorts. And great was the falling thereof.

(11) The High Mogul has maintained a discreet silence, but the man of action will deal sternly with the puny whinnies of the Calgarians and great will be the rejoicing.

## RADICALS THEMSELVES APPALLED BY STATE OF BRITISH LEGISLATION

House of Lords Is Given But a Fortnight to Consider Three of the Most Important Measures Ever Brought Before the Country

London, Dec. 11.—Even the most stalwart radicals are appalled at the state of things on the eve of the closing of the present parliament.  
The government has flung at the House of Lords, a national insurance bill, directly affecting from 15,000,000 to 20,000,000 workers, which had been adorned with 370 amendments in its penultimate stage in the House of Commons, a majority of which were entirely unimportant.  
With this go the naval prize bill which was whipped through the House of Commons with a majority of 47, the mines bill and the budget. For the consideration of these important measures, the Lords have only a fortnight.  
The latter point that when Lord veto was destroyed the government explicitly disavowed the idea of a single chamber. The government declared that the Lords retained the power of revision as well as delaying legislation. In face of the fact that they are allowed only two days for

## "MORNING BEAUTY" POLLING HEAVY

IN CAVE OF THE WINDS UNDER HORSESHOE FALLS—FINAL MARK CLOSING MEETING

(Western Associated Press.)  
Niagara Falls, N. Y., Dec. 11.—With his face turned towards the setting sun his God, Chief Oshesha Niagara (Thunder Water) spoke the last word which will probably ever be heard here for the pagan faith of the Indians at the cave of the Winds, under the Horseshoe Falls. Here in 1818 Chief Thunder Water was named by his parents, people of the Oshesha tribe of Kansas, while they were on their way to pay a visit to Indians near Montreal. The christening today was performed by the Rev. G. S. G. Hares of Saint Pauls.  
With the difficulty other clubs are having to find a capable manager it is clear that the Washington club made a ten strike when it secured Clark Girdle.  
The polling is proceeding quiet and promises to be heavy.  
This Speaker of the Red Sox, did not bat as high as he did last year, but the Boston fans think pretty well of him. Speculation still looked upon as one of the best outfielders in the business.

## ANGLO-GERMAN RELATIONS SAME

SO SAYS GERMAN CHANCELLOR IN HIS SECOND SPEECH ON SITUATION

(Western Associated Press.)  
London, Dec. 11.—The German Chancellor's second speech on the Anglo-German relations has not altered the position of affairs as left by Sir Edward Grey. This has not been made worse, neither has it been made better.  
But the chancellor's speech may be regarded as showing the desire of Germany to let the matter drop for the present, while Sir Edward Grey's speech at Plymouth showed a like desire. The situation, therefore, remains the same as it was before Sir Edward's speech in parliament had cleared up, but is still delicate.  
The chancellor omitted all mention of the obligations of Great Britain to France, though he asked why the former country should have presented the arrival of the warship, the Pantheon, at Agadir, when it had not objected to the operations of France in Morocco. He also stated the patent fact that Great Britain had entrusted her interests in Morocco to France.

## GERMAN IS KILLED; FRENCHMEN JAILED

BELIEVED THAT CRIME WILL CAUSE HOSTILE FEELING BETWEEN RACES IN ALGERIE LOIRRAINE

(Western Associated Press.)  
Metz, Alsace, Lorraine, Dec. 11.—A German soldier named March was shot and killed today during a dispute on the street with a man named Alexandre Samu, one of the leaders of the French party. Four friends of Samu, together with himself and his brother, were arrested for complicity in the crime.  
The incident has caused great excitement and the trial of the arrested may have a momentous effect in fanning the hostile feeling of the two races which are always so acute in Alsace Lorraine.  
Paddy Livingston, the husky catcher of the Athletics, may go to Cleveland with Harry Davis next season. It is reported that Davis is anxious to have Livingston, and that he has asked Connie Mack to sell the player.

### PHYSICIAN IS ACQUITTED.

(Western Associated Press.)  
Brainerd, Minn., Dec. 11.—Last night jury in the trial of Dr. D. P. Dumas, of Cass Lake, charged with committing arsenic at Black Duck, returned a verdict of not guilty, having been out three and one-half hours. On the first ballot the jury stood eleven to one in favor of acquittal. There appears to have been no question of his innocence in the minds of the jurors.

Paddy Livingston, the husky catcher of the Athletics, may go to Cleveland with Harry Davis next season. It is reported that Davis is anxious to have Livingston, and that he has asked Connie Mack to sell the player.

## Sask. League Has Trouble

Regina Discovers that Schedule Will Not Allow Allan Cup Games

Capitals Now Demand That a New Schedule Be Drawn Up

Regina, Dec. 11.—The way of the Southern Saskatchewan Hockey league does not appear to be one of roses. The league was organized here on November 25, with Seattle, Arcadia, Weyburn and Moose Jaw and Regina in line. But Weyburn and Moose Jaw since then have been dropping out, and wanted them dropped and Swift Current substituted. Another meeting was held last Friday when the matter was dealt with, and decided by Regina consenting to these two teams on the line, one in a division with Moose Jaw, Weyburn and Swift Current, and the other with Seattle and Arcadia. A schedule of games for each division was then drafted. The first round on December 15, and closing March 1. The Regina club now takes exception to this schedule, and well it might. The local hockey public contends that this city will have the strongest Regina for years. It looks for the Capitals to clean up their league and then so after the Regina cup. But under the present schedule this will be almost an impossibility. The last scheduled game in the first round is slated for March 1. Then comes a play off of four teams and the winners of the B division. This would carry them on to at least March 7. Then there would be the preliminary arrangements to be made for the Allan cup games and the national players both think that by the time the Saskatchewan champions would be ready there would be no time. Consequently the locals are clamoring to have a league meeting called to deal with a rearrangement of the schedule.
